School of Expression

TRAINING FOR MIND, BODY AND VOICE

**COURSES FOR SPEAKERS, TEACHERS, READERS, DRAMATIC ARTISTS AND
ALL PROFESSIONS. SPECIAL COURSES SATURDAY EVENINGS ::: :::**

“For years the work of this school has attracted the interested attention of earnest scholars and leaders of thought who appreciate the importance of an institution where the fundamental laws of expression are so elucidated as to lift the curse of ignorance and charlatanism from the noble art of public speaking.”

Editor B. O. Flower, in the “Arena” for July, 1908.

“There are few American teachers — — of speaking — — who will not testify to the soundness of his methods and his almost fanatical devotion to ideals in his art.”

Shailer Matthews, in “The World Today,” February, 1908.

If you have any trouble with your voice, or believe in the harmonious training of mind, voice and body, or wish culture in any phase of literature, call and investigate. One of the teachers will be in attendance daily, from 9 to 5. Catalogue and the two articles quoted above sent on application.

**Special boxes

REGULATIONS CONCERNING FIRE ALARMS

First alarm to be given by striking four rounds on all bells

Second alarm to be given by striking three blows on all bells, followed by one or more rounds of box number

Third alarm to be given by striking ten blows on all bells followed by box number

1 One stroke at 12 M, Washington time, and 9 p m every evening

1-1 Two strokes slow for fire out, and all apparatus under way will return to quarters

INFORMATION FOR YOU

To give an alarm, open the door to fire box, pull down the hook in the box once (without jerking) and let go. Wait for a few seconds and if you hear no clicking of the wheels, pull again (no clicking, no alarm); if then no movement is heard go to the nearest box and try, after which report immediately to the superintendent or at the Station House, the box out of order

Before ringing an alarm be sure that a fire actually exists

Do not give an alarm for a fire seen at a distance, as all needless alarms are an expense to the town, and should be avoided as much as possible

All persons giving fire alarms are requested to remain by the box, if possible, to direct the firemen to the fire. Each box contains a small bell, which if heard before you pull, indicates that the alarm has been previously given

After the first alarm has been rung in, all other alarms or signals are given only by the engineers

Tampering with any of the apparatus connected with the Fire Alarm Telegraph will be prosecuted to the full extent of the law

SPECIAL NOTICE

The fact that an alarm box is located near their residence and where the key is kept, should be known to all persons, both male and female; and the simple manner of giving an alarm in case of fire should be a matter of common education. The chief recommends to all persons who may see this notice, that they make necessary inquiries to enable them, in case of need, either to pull an alarm in, or direct others to do so. Time saved in this way may prevent a conflagration
